# Notice of Product Price Revision

NS TOOL CO., LTD. (the “Company”) hereby announces that it has decided to revise the prices of certain products.

1. Price Revision Rates by Product Category (Catalog Products)

| Product Category | Maximum Diameter | Revision Rate |
|---|---|---|
| Carbide Products | Up to and including φ4 mm | 10% or more |
| | Over φ4 mm and up to and including φ6 mm | 15% or more |
| | Over φ6 mm | 30% or more |
| CBN/PCD Products | All sizes | 10% or more |

Please note that certain products may remain unchanged or may be subject to revisions outside the ranges shown above.

2. Effective Date

The revised prices will apply to orders received on and after December 1, 2026.

3. Reason for the Revision

In response to the continued rise in raw material prices, auxiliary material costs, and other operating costs, the Company has made every effort to improve productivity and implement cost-reduction measures.

However, the business environment surrounding raw material prices and other costs has become increasingly challenging, making it difficult to absorb these cost increases solely through internal efforts. In order to maintain a stable supply of products and ensure consistent product quality, the Company has decided to revise the prices of certain products effective December 1, 2026.

4. Impact on Financial Results

The impact of this price revision on the Company's financial results for the fiscal year ending March 31, 2027 is currently under review. The Company will promptly disclose any material impact once a reasonable estimate becomes available.
