## 1. Qualitative Information Regarding Results for the First Three Months

### (1) Explanation of Operating Results

During the three months ended June 30, 2022, the Japanese economy experienced a delay in the recovery of production activities in the manufacturing sector, mainly due to the effects of the ongoing global shortage of parts supplies from the Russian invasion of Ukraine and supply chain disruptions caused by the lockdown in China. In addition, the ongoing depreciation of the yen and rising costs, including the soaring prices of raw materials due to the rise in resource prices, have become a cause for concern.

As for the situation of the major customers for the products of the Company group (the “Group”), the automotive industry continued to experience weak demand due to continued production cutbacks affected by the parts supply shortage that has been continuing since last year. On the other hand, the semiconductor and market of electronic components and devices generally remained strong, although demand for some electronic components, which had been brisk, showed signs of stabilizing.

Amid such an environment, the Group interacted directly with many users at INTERMOLD 2022 held in Osaka in April, and announced a new product, the MUGEN COATING PREMIUM Plus 4-Flute Long Neck Corner Radius End Mill with short shank for Hardened Steel and High Accuracy Cutting “MHRSH430RSF,” which increases accuracy for cutting hardened steels. With regard to overseas sales activities, we have resumed some overseas business trips in line with the easing of movement restrictions. While continuing to provide a wide range of support remotely, we are implementing meticulous services such as visiting local users and making technical proposals.

In terms of production, the NS TOOL Group continues to promote “Orange FC Activities,” which are “NS TOOL Group improvement activities that take on challenges for the future,” to further improve product precision and productivity, and addressing cost reduction to cover rising manufacturing costs, including electricity rates.

As a result, net sales for the three months ended June 30, 2022 were ¥2,355 million (down 3.7% year on year), operating profit was ¥542 million (down 6.8% year on year), ordinary profit was ¥540 million (down 8.3% year on year), and profit attributable to owners of parent was ¥322 million (down 17.8% year on year).

By product category, sales of “End mills (diameter 6 mm or less)” were ¥1,827 million (down 5.1% year on year), sales of “End mills (diameter over 6 mm)” were ¥215 million (down 1.0% year on year), sales of “End mills (other)” were ¥131 million (up 3.9% year on year), and sales of “Other” were ¥181 million (up 2.6% year on year).

(Note) Since there is only one reportable segment, the information is presented by product category. The “Other” business segment is included in “Other” by product category.

### (2) Explanation of Financial Position

As for the consolidated financial position as of June 30, 2022, total assets decreased by ¥324 million compared to the end of the previous fiscal year to ¥17,549 million. This was mainly due to a decrease in cash and deposits for the payment of income taxes and bonuses.

Furthermore, liabilities decreased by ¥353 million compared to the end of the previous fiscal year to ¥1,354 million. This was mainly due to decreases in income taxes payable and provision for bonuses.

Net assets increased by ¥29 million compared to the end of the previous fiscal year to ¥16,195 million due to an increase in retained earnings, etc. Equity-to-asset ratio as of June 30, 2022 amounted to 91.1%.

### (3) Explanation of Consolidated Business Results Forecast and Other Forward-looking Statements

With respect to the forecast of business results for the fiscal year ending March 2023, there is no change from the business results forecast announced on May 16, 2022.

**(3) Notes to Quarterly Consolidated Financial Statements**

**Notes on uncertainties of entity's ability to continue as going concern**

Not applicable.

**Notes when there are significant changes in amounts of shareholders' equity**

Not applicable.

**Application of accounting procedures specific to preparation of the quarterly consolidated financial statements**

With regard to the Company and certain subsidiaries, tax expenses are calculated by multiplying the profit before income taxes by the reasonably estimated effective tax rates after the application of tax effect accounting to the profit before income taxes for the fiscal year including the first quarter of the current fiscal year.

**Changes in accounting policies**

Application of Guidance on Accounting Standard for Measurement of Fair Value

“Guidance on Accounting Standard for Measurement of Fair Value” (ASBJ Guidance No. 31, June 17, 2021; hereinafter “Guidance on Accounting Standard for Measurement of Fair Value”) is applied from the beginning of the first quarter the current fiscal year, and the new accounting policy prescribed by the Guidance will be applied prospectively in accordance with the transitional treatment prescribed in Section 27-2 of Guidance on Accounting Standard for Measurement of Fair Value. There is no impact on the quarterly consolidated financial statements.
